

WENCON DOCKING KIT

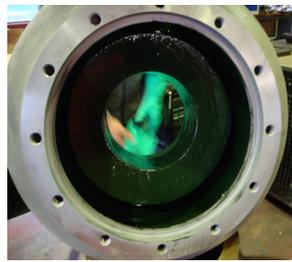

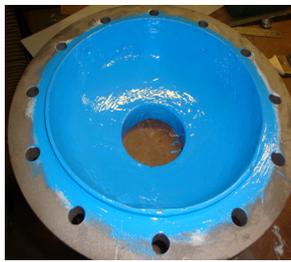

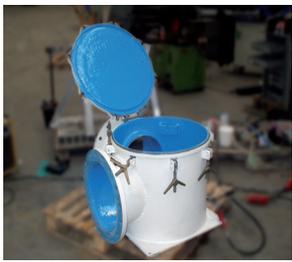

STANDARD

Long-term corrosion protection

For interior repair solutions

To facilitate circular economy

WENCON®

WENCON® DOCKING KIT STANDARD

BE PREPARED FOR THE DOCKING SITUATION - AND SAVE YOUR BUDGET

WENCON Docking Kit Standard

The WENCON Docking Kit standard is a unique Repair Kit for use when the vessel is docking. The Kit is ideal suited for preventive maintenance, corrosion protection and repair of worn out equipment.

Where to use Docking Kit Standard

WENCON Docking Kit Standard is suitable - but not limited - for repair jobs in areas connected to seawater, including:

- Cooler Cover and End Plates
- Cooling and ballast systems
- Seawater filters
- Pumps

Eliminate replacement of spareparts

The Docking Kit Standard includes all compounds and coatings required to complete a WENCON repair job, eliminating the need for replacement of spareparts.

Return of products not used

Products that have not been used and still in original packaging, can be returned according to WENCON return policy.
